

**IDISCOVERI PRESCHOOL**

Every child is a star

# From Set Back to Come Back

Online teaching is a real thing now and we all have to adapt and make every learning opportunity count for our children. With so many of us making the switch to online teaching and therapy, a big challenge is figuring out ways to keep our Pre-Schoolers engaged during the session. It can be even more challenging when working with really young children like preschoolers. At the iDiscoveri Preschool at Sector 46 Gurgaon, So far we are managing our E-Learning sessions by incorporating the following tips, parents are being very supportive, we share planners with related videos, during the live sessions our mentors demonstrate the activities planned -

1. On a Daily Basis an Activity is Planned and the Goals related to the Activity are Broadcasted to the Parent of Each Class along with the Method and also Posted on Face Book ( Samples Attached )

<https://www.facebook.com/idiscoveri.preschool/>

2. Our Principal on a Weekly Basis is Uploading a Story along with Props on our You Tube Page and the Link is Broadcasted to the Parents for our Little Stars to Watch and Keep in Touch <https://www.youtube.com/user/idiscoveri1>

3. Incorporate movements- It is very difficult for preschoolers to sit at one place therefore incorporating some movements like dancing, musical moments, or some games etc is a good idea.

4. We try to Keep the session Interactive with humor also and voice modulation etc ..

5. Parent presentation and engagement is very important to keep the child focussed .

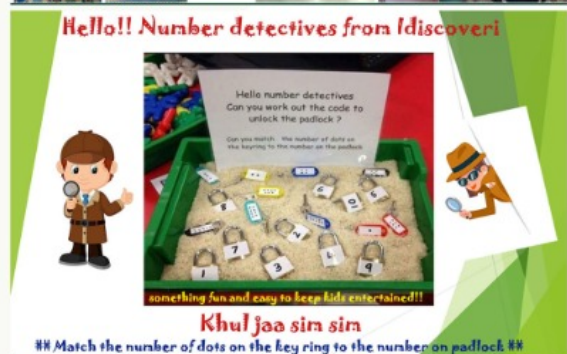

6. Show and tell- Online sessions give us a great glimpse into our child's personal life

7. We Use Props also to make the session interactive and informative. PreSchoolers pick things easily through visual learning.

9. Once a Week Activities, where Parents Keep Props Ready before the Start of the Class with Essentials and then Help us in Way Forward along with the Children are held for Nursery and Kinder Garten Classes

I am sharing few ideas/pictures of what we follow at our Preschool to keep our tiny tots busy.

We also give weekend family goals wherein kids and parents get engaged into fun activities.
